

← Minnesota Public Criminal History Record ?

ⓘ Please note the following:

- Convictions with a discharge date within the last 15 years are reported below. Convictions older than 15 years are not public records.
- Offenders often use aliases, including the names of other people. The name you searched for is a **Reported Name**.
- You cannot assume this record corresponds to the person you searched for. Fingerprint verification is the only way to verify a record belongs to a person.

Minnesota Statute 609A.055, subdivision 3 requires automatic expungement of certain cannabis-related offenses effective Aug. 1, 2023. Qualifying records have been expunged (sealed) in the Criminal History System. In addition, an individual's record may include cannabis-related offenses that are eligible for review by the Cannabis Expungement Board. The Board will determine whether the offense meets the criteria for resentencing or an order of expungement through the Judicial Branch.

Effective Jan. 1, 2025, the Clean Slate Act requires automatic expungement of certain offenses, both in the past and going forward, from the BCA's Criminal History System (CHS). While more than two million potentially eligible records have been identified and are being reviewed by the BCA and the Minnesota Judicial Branch, an individual's record may include offenses that are potentially eligible for automatic expungement. Qualifying record expungements (sealing) on historical records began in June 2025 and will continue until the work is complete.

Since records are sealed and not deleted, individuals who may need copies of their own criminal history records that are eligible for expungement may request the records at any time. Copies of expunged (sealed) criminal history records will be provided to the subject of the record upon request. To obtain copies of Minnesota criminal history records, [submit a data request](#).
